An organizations should have momentum with progressive approach and with change to reach out its targets / achieve its priorities set up. Vision 2020 of Indian SGF has brought in many changes with in structure of Indian SGF, management system at all levels, membership growth & also in image building. We have also few targets yet to achieve, few are able to reach with in stipulated time and few get struck with in conflicts. Bringing change is a big challenge and also accepting challenging is another area we are facing rough weather. Friends the change is meant in the interest of Indian SGF, its progress and growth. To reach out to unreachable & fulfill the cause of SGF with its objectives, we have to proceed with intensified zeal and last push plan beyond 2020. Hope to get all your support & cooperation in moving ahead with Vision 2020 & beyond.
